- b) Explain gesture and posture as a form of non verbal communication with examples.
- c) Read the following passage and answer the questions given below :

Stephen and Joseph Montgolfier were papermakers, but they had been interested in flying for many years. One night in 1782, Joseph noticed something that gave him an idea. He was sitting in front of fire when he saw some small pieces of scorched paper carried up the chimney. Soon afterwards the brothers made an experiment. They lit a fire under a small silk bag which was opened at the bottom. At once the bag rose to ceiling. After this, they made many more experiments, both indoor and in the open air. Then they built a huge balloon of linen and paper. On June 5th, 1783 they sent this balloon up in the village of Annonay, where they lived. The first ascent in England was made on September 15th 1784 by Vincent Lunardi, an Italian who was living in England. Lunardi took off in a hydrogen balloon from a field in London, taking with him a pigeon, a cat and a dog. He had to come down to leave the cat which was suffering from the cold, but afterwards flew on to Standon in Hertfordshire.

Questions :

- i) State the interest of Stephen and Joseph. 1
- ii) Mention the incident which gave Joseph an idea. 1
- iii) Explain the experiment made by the brothers after getting idea. 1
